

Ethics Statement

I want to work *ethically*, and not *unethically*.

I do not want to *cause harm to life* with my work.

I want to *preserve and cherish life* with my work.

I want to work *openly*.

I do not want to work *secretly*.

I want my work to be able to be *accessible* to...

and to be *useful* to...

I do not want my work to be *suppressed* by...

nor be *misused* by...

...anyone and everyone.

Sincerely,
